TITLE: Roll shaping method of metallic tie plate for steel deck construction -  
involves pushing end of valley horizontal strip of metallic tie plate towards  
inclined web strip using flange portation, thereby forming stiffening rib with  
curves near bend of web strip

TITLE: Simulation waveform verification system for monitoring operation of  
digital circuits - has synthetic process part which synthesis image data and  
enhances waveform chosen for simulation such that synthetic display of entire  
image and part image is possible on one screen
